# SUMMARY

## 1.1

During the fight, the number of strong blows by the blade of the weapon delivered to the legal strike zones of the opponent's body is counted.

## 1.2

There are no weight categories in the "Saber" duel category.

## 1.3

The Marshals' group includes the Knight Marshal (Head Referee), (4) Marshals (Referees) or points counters, a secretary (to count points of each match), and a Safety or Authenticity Committee Representative (if required).

### Important!

Legal strike zone excludes open face, groin, back of the neck, back of the knee, feet.

## 1.4

Fights of the duel category are conducted in the list arena which is a barrier measuring 6–10m wide and 6–20m long. The height of the barrier is 0.9–1.3m. There must be a fenced/roped 2m wide safety zone around every side of the list. Only Marshals, Squires (Seconds or a Coach) of the fighter, technical brigade and accredited photo/videographers are permitted into the safety zone. Any extra fighter or non-combatant of the team in the safety zone will result in a penalty (yellow card) for the individual or their team (club).

## 1.5

Each fight consists of one 90s round. The fighter who scores the most points wins. In the eventuality of a tied score, there will be one 30 second additional round to break the tie.

## 1.6

Each stout blow to the legal strike zone of the opponent's body will score:

- two points if the blow landed in the head or torso
- one point if the blow landed in the legal strike zone excluding head and torso.
- if the fighter knocks the 'marker' out of their opponents off-hand they are awarded five points
- one point if the blow landed in the legal strike zone with the pommel of the weapon
- points count only below the wrist edge or divet for all gauntlet strikes
- two points for disarming an opponent

**Important!**

In case of any disagreement, any contestation is addressed via "Rules and Regulations v.1"

## 1.7

A blow is considered stout if it was clear and deliberate, and the opponent failed to counter it effectively with a defensive action. A point is counted if the weapon makes contact through an opposing guard with sufficient force to be classified as a stout blow. A point is not counted for any contact made by the "flat" of the blade.

## 1.8

Points are counted during the fight. The fighter who scores the most points wins.

If the round ends at a draw, an extra 30s round is fought to determine the winner.

"Technical win" with a score 3-0 is awarded to one of the fighters in the following cases:

- If the opponent withdrew from the fight before it commenced; failed to report to the list upon the Head Referee's call, or failed to prepare the equipment within the designated time.
- In the case that a fighter cannot participate in the competition because of injury or disqualification, their opponent is awarded a technical win.
- If the opponent cannot continue fighting because of an "accidental injury".
- If an opponent gets two (2) Yellow cards (warnings) or Red card (disqualification).
- If the fight is impeded due to equipment failure that is impossible to fix within the designated time frame of no more than one (1) minute.
- Assessment is made by the Knight Marshal (Head Referee).

## 1.9

Both participants hold in their "main hand" a saber. In their "off-hand" both participants must hold a an individual "marker" which a fighter must carry and hold during the entirety of the match and may not drop or discard it at any time. The marker is a painted bar or wooden dowel, approximately 15-20cm in length.

**Important!**

If the fighter cannot continue the fight due to the injury caused by an illegal strike, their opponent receives a penalty of double yellow cards and is banned from further participation in the tournament in that category. The injured fighter is awarded a technical victory. The injured fighter may withdraw from further fights in this category.
